12 August 2019

Dear Carina Community Resident

Mayfield State School Visioning: Invitation to participate in school visioning workshop – 28 August 2019.

The Mayfield State School P&C has commissioned Towill Design to prepare a visioning plan for our school. It is aimed to help us plan for the school's future, and to embrace new opportunities in the world of education and the broader community.

As part of this visioning process we are keen to hear from and involve a broad range of views including students, teachers and staff, as well as the broader school community. As a valued member of the school's neighbouring community, we want to hear your ideas and gain your feedback on the future of our school.

On behalf of Mayfield State School and Towill Design, I would like to invite you to a workshop on 28th August from 6.00pm to 8pm at Mayfield State School Multipurpose Hall. Parking around the school as normal with entry from Paget Street, the Corfield Street gate will also be open and closest to the Multipurpose Hall. Entry through the Stop, Drop and Go gate will be open.

Register to attend and work with others to learn more about the school's future and how you can be involved. Please be aware numbers are limited so please register your interest as soon as possible, by pandc@mayfieldss.eq.edu.au.

Thank you in advance for your involvement in our school's future planning process.

Yours sincerely

Pam Stewart
Mayfield State School P&C President
