REQUEST FOR USE OF MOBILE PHONES BY STUDENTS

I request that my child _____ of Class _____ bring a mobile phone to school. I consider this to be essential.

I understand:

- The school discourages students bringing mobile phones to school because of potential theft, damage to the phone and their distracting influence.
- Urgent communication should still be relayed through the office.

I agree to the conditions as outlined below:

- The mobile must be switched off during all class time and MUST be handed to the office before school and collected at the end of the day. If the mobile is not handed in, the mobile will be confiscated and the student will no longer be permitted to bring it to school.
- Under no circumstances will the school accept responsibility for loss or damage to the mobile phone.
